

To pursue a professional career in IT Industry as a software testing specialist on Automation Testing handle technically challenging assignments and to be associated with progressive organization in an Industry which provide me with a dynamic work sphere, to extract my inherent skills and to be credit to the Company.

EXPERIENCE SUMMARY

- ♦ **Sr QA Analyst with Total experience of 6 Years** from which **4year experience in GUI automation using Selenium Java, 1.5 Years in GUI automation using Java Cucumber, 1.5 years in API automation using Java with Rest Assured Library,**
- ♦ **Well acquainted with Software Development Life Cycle, Software Test Life cycle and Defect Life Cycle.**
- ♦ **Designed GUI Hybrid Automation Framework using Java, Selenium Webdriver, TestNG, Page Object Design Pattern, Maven, Jenkins**
- ♦ **Designed API Automation Framework using Rest Assured library using Core Java and Testng.**
- ♦ **Experience in BDD Framework Using Cucumber, JUnit, Extent Reports**
- ♦ **Well acquainted with OOPS concept and implementing in the framework level.**
- ♦ **Well acquainted with integrating Jenkins with GIT for CI.**
- ♦ **Well acquainted with POM (Page object model) model in UI and API framework as well.**
- ♦ **API Testing using different method (GET, POST, PUT and DELETE) for Restful Services.**
- ♦ **API Automation framework designed using TestNG, Git and Maven for testing Restful services.**
- ♦ **Design different framework like Hybrid framework, data driven framework**
- ♦ **Experience in Designing, Debugging and executing the automation scripts.**
- ♦ **Good at identifying and creating of reusable business components and generic libraries.**
- ♦ **Hands on experience in preparing Test Plan, Test Scenarios, Test Cases, Test Summary Report, Traceability Metrics and SQL database knowledge and Defect Reporting. SQL server 2007.**
- ♦ **Experience in Agile Methodology (SCRUM).**
- ♦ **Experience in Web Based Applications (Storage, E-commerce and SCM).**

ACADEMIA

- ♦ **BE (Electronic and Communication Engineering) from VTU(RL Jallappa Institute of Technology) in 2010, Bangalore.**

CAREER HIGHLIGHTS

- ♦ **Currently Working in UST Global Technology as Test Analyst from 17-02-2020**
- ♦ **Worked as SDET in Dell India Services with the payroll of Object win India Private Ltd from 4-Nov-2019 to 13-02-2020**
- ♦ **MTS QA at NetApp India Pvt Ltd with the payroll of HCL Technologies from Dec-2018 to 25-Oct-2019**
- ♦ **Senior Software Engineer with Brady Company India Private Limited from Feb - 2014 to May-2018**

Khamertaj2506@gmail.com
+91-9035369328

- ♦ Involved in API Testing using Postman and Rest Assured

Project # 3:

Project Name	System Manager Next
Duration	December -2018 to October-2019
Client	NetApp India Pvt Ltd
Operating System	Windows 10
Tools	BDD - Eclipse IDE, Java, Selenium 3.x,Cucumber, JUnit, ANT, Perforce PV4, Jenkins, Burt, QTest, Rest Assured
Role	MTS QA

Project Description

System Manager is a web-based application, System Manager is a graphical management interface that enables Users to manage storage systems and storage objects (such as disks, volumes, and aggregates) and perform common management tasks related to storage systems from a web browser. As a cluster administrator, you can use System Manager to administer the entire cluster and its resources.

Responsibilities:

- ♦ Designed **Behaviour Driven framework** using **Java, Cucumber, Selenium Web Driver 3, Page Factory design pattern.**
- ♦ Created **common Utilities, Libraries** for feature Test cases.
- ♦ Created **feature files and step definition files.**
- ♦ Created, debug and executed scripts using **JUnit Test Runner Class**
- ♦ Maintain Code Version through **Perforce v4.**
- ♦ Daily analysis of failure Test Cases and finding the root cause and fixing it as per the latest change.
- ♦ Involved in API Testing using **Postman and Rest Assured.**
- ♦ **API Testing using different method (GET, POST, PUT and DELETE) for Restful Services.**
- ♦ **API Automation framework designed using java TestNG, Git and Maven for testing Restful services.**

Project # 4:

Project Name	Seton AU (E Commerce – www.seton.net.au)
Duration	February-2016 to May - 2018
Client	Brady Company India Pvt Ltd
Operating System	Windows 7
Tools SQL Server	Eclipse Oxygen, Java, Selenium WebDriver 3, TestNG, Apache POI, Maven Extent Reports, Source Tree, GIT, Bitbucket, Jenkins, Jira
Role	Senior Software Tester

Project Description

Seton AU is a Web Based Application, which provides quality of school safety products, home and office safety products With over 50,000 products.

Khamer Taj
Khamertaj2506@gmail.com
+91-9035369328

Responsibilities:

- ♦ Developed **Hybrid framework** using, **Java, Selenium Web Driver 3, TestNG**
- ♦ Integrated **Browser Stack** with Jenkins Job to run the Test Suites on Multiple browsers.
- ♦ Involved in writing the common Library.
- ♦ Build tests through Maven **POM** file.
- ♦ Maintain Code Version through **GIT, Source Tree**.
- ♦ Implemented **Extent Reports** and Configured **Extent Report Plugin** to generate HTML test reports.

Project # 5:

Project Name	Seton US (E Commerce – www.seton.com/)
Duration	February-2014 to January-2016
Client	Brady Company India Pvt Ltd
Operating System	Windows 7
Tools	Eclipse, Java, Selenium2.45, TestNG, Apache POI, ANT, Source Tree, Bitbucket, Jenkins, Jira
